## ClimaCool Technology

FIA approved adidas race suits have been designed and developed by Fyshe in conjunction with leading professional drivers. In addition to a high level of protection, adidas race suits provide superior performance and comfort in the most demanding racing environments.

Three-dimensional ClimaCool® fabrics actively conduct heat and sweat away from the body, allowing air to circulate close to the skin and reduce core body temperature.

## Smart Tag

“Smart Tag” technology allows the wearer to both authenticate the racewear is a legitimate product and validate that it is Homologation compliant by scanning over the FIA hologram on any NFC enabled smartphone.

Connected by Otentico.

## RSR ClimaCool Race Suit

- Ultra-lightweight 265gr/sqm, contemporary design with dual layer 100% Nomex® sandwich construction that provides superior protection, performance and comfort
- ClimaCool® open weave mesh on body-mapped areas of the lower back and under arms increases breathability by up to 25% in key sweat zones
- ClimaCool® lining with moisture wicking offers outstanding cooling and breathability
- Fully floating sleeves, engineered arms and legs plus anatomical breathable stretch panels afford optimal 'driving' fit and freedom of movement
- Flat seam construction and lightweight collar construction reduces bulk and enhances comfort  
"Smart Tag" technology - authenticates product legitimacy and homologation compliance

Complies with FIA standard 8856-2000

Sizes: 46 - 62

## TechFit LS Top

- Soft and ultra-lightweight 180gr/sqm viscose fabric dissipates heat and reduces sweating
- ClimaCool® technology with moisture wicking delivers superior breathability
- Sculpted compression fit reduces muscle vibration and fatigue
- Minimal seam construction with stretch for maximum comfort and fit
- “Smart Tag” technology - authenticates product legitimacy and homologation compliance

Complies with FIA standard 8856-2000

## Daytona Boots

- Lightweight, mid-cut race boot with soft full-grain leather upper
- Flame retardant Nomex® lining and sock liner
- Increased lateral stiffness helps to spread high pedal pressure load without creating pressure points
- Instep support helps reduce muscle fatigue when out of the car
- Oil and flame retardant lightweight rubber sole
- Anti-abrasion rubberised print areas for increased durability
- Soft padded Achilles panel for greater comfort
- Velcro® ankle strap closure for a secure, custom fit.

Complies with FIA standard 8856-2000

Sizes: UK6-12.5
